OUR EXPERTISE

PLANNING AND DEVELOPMENT

Our constructions are planned by experienced designing engineers in close collaboration with our production.

STEEL CONSTRUCTION

In our certified metal works production, which is certified to EN 1090, the basic structure of each Adventure 1 Zone high ropes course is manufacture and prepared for intallation.

TIMBER & FIBRE WORK

In our carpentry all wooden & fibre components of the high rope courses are manufactured inhouse and assembled on site.

CONSTRUCTION OF CLIMBING ELEMENTS

Our craftsmen build each climbing element by hand. They focus on creating individual elements and creative details. Besides, they keep a huge eye of individual elements with affectionate details.

SAFETY GEARS

We provide and use UIAA certified Equipment's for all Adventure Activities like PETZL.

ASSEMBLY

Our installation team assembles the pre-fabricated parts on site and set up the Activities ready for operation.

- Initial consultation: Competent advice and consulting for the individual project
- Site analysis regarding feasibility and potential for success
- Preparation of a personal profitability calculation
- Business consultancy regarding the operator model, permits, insurance etc.
- Detailed construction planning according to your wishes
